

VIKING 2 PLUS

RESIDENTIAL FLUIDROWER

The FDF Viking 2 Plus FluidRower is a sleek and modern rower designed for casual cardio or high-intensity training. This Viking 2 Plus features a durable, sturdy constructed frame from ethically sourced American Ash woodgrain.

The Viking 2 Plus has 4 levels of adjustable Fluid Resistance provided by our patented Twin Tank system. Manually adjust the resistance by turning a tactile and audible selector dial, assuring accurate and even level selection.

The 4 levels of Adjustable Fluid Resistance provide a consistent resistance throughout the entire rowing stroke. The range of adjustability from level 1 "feather light" to level 4 for an intense workout.

Easy to stow-away, stand this model on its end for compact storage.

It is appealing to a broad market, including rehab and seniors. The Viking 2 Plus is also compatible with FDF's optional Seat Back Kit for extra lumbar support, and the Elevate Kit for easier on-off access.

ABOUT FDF LIMITED

FDF Limited is the leader in designing and manufacturing a range of adjustable Fluid Resistance fitness machines for commercial and residential applications. At the heart of the fitness range is the unique and patented Twin Tank Fluid Resistance system. The adjustable Fluid Resistance system challenged conventional thinking of how water could work to provide adjustable resistance rather than just a liquid mass flywheel. The patented Twin Tank system provides silky smooth resistance at any speed and is perfect for cardio training, warm-ups, cool downs, intense HIIT workouts or rehabilitation programs. **FDF Limited** categorizes the range of adjustable Fluid Resistance machines under the banners, **FluidRower, FluidExercise and FluidPowerZone**, see the adjacent web links. **FDF Limited** products are distributed throughout the globe and are popular in Fitness Centers, Hotels and Apartments, Sporting Clubs, Universities, First Responders, Defence Force Training Facilities and Physical Rehabilitation Clinics.
